

How to order a gift card

Option 1:

You may purchase and have the gift card code sent to yourself, and you can either use this code yourself or send it to a recipient. For example, you may want to write the code in a birthday card and hand deliver it, etc. To do this, choose not to fill in an alternative shipping address and keep everything (all confirmation emails) coming to your own billing address.

Option 2

You may purchase & have the gift card code sent to someone else (friend, relative, co-worker).

- Choose to enter the alternate shipping address (of the recipient) and the gift code will be sent directly to your recipient's email.
- You will also have the option of entering a gift message which will go directly to the recipient's email address as well. (Note: Be sure to write your gift message in the "gift message" box, NOT the "order notes" box.)

In order to use the gift card, enter the 16 digit gift card code prior to check out on the website. This code can also be used at any of our three tasting room locations (Milton-Freewater, OR; Dundee, OR; Woodinville, WA).
